TRICKY ROADS MEETING TRAFFIC AT OLIVE ROAD

Meeting traffic in Olive Road can be quite tricky. Look as far ahead as possible. If you see cars approaching, it may be wise to move over at your first opportunity. Make sure that if you use a gap, there is room for any vehicle behind you to fit. At the top of the road there are two mini-roundabouts. You may need to use first gear on the approach to give you time to see to the right.
