

DOORS

HAND BRAKE

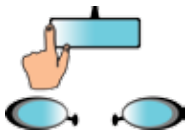

SEAT

STEERING

SEAT BELTS

MIRRORS

Operating the hand brake

Important

- Check the hand brake is applied as soon as you enter the car
- Pull the lever upwards to prevent the car rolling
- To release, pull slightly upwards, press the button (with the button pressed), push downwards

IF THE CAR IS LEFT IN GEAR, THE CAR SHOULDN'T ROLL. HOWEVER, THE CLUTCH WILL RELEASE THE GEARS AND THE CAR MAY MOVE IF YOU HAVEN'T CHECKED THE HAND BRAKE!

Adjusting the driver's seat

Important

- Secure the car first
- Adjust height first as the seat will go up and down slightly
- Adjust the base of the seat so you can reach the left pedal comfortably

Activating the ignition (to operate mirror controls)

Important

- Press the button WITHOUT the clutch down to activate the ignition (to use the electrics)
- Press the button WITH the clutch down to start the engine

WHEN STARTING THE ENGINE, REMEMBER TO CHECK THE HAND BRAKE IS ON, AND THAT THE GEARS ARE IN NEUTRAL

Adjusting the door mirrors

Instructions

- Slide the centre control (located above the window controls) to either the left or right
- Use the arrows to move the mirrors as required

YOU WILL NEED THE IGNITION SWITCHED ON TO ADJUST THE MIRRORS (SEE ABOVE)
